Gage Will Run Again for State School Job

CHEYENNE, March 16.—(AP)—Jack R. Gage, state superintendent of public instruction, announced today he will be a candidate for reelection. "In announcing my candidacy for reelection," he said, "I do so with the feeling that although without a doubt I have made some errors, at the same time I have in all instances endeavoring to save my judgment with a degree of common sense, and, coupled with the fact that the administrative costs of the department to date show a saving of \$21,000 at the same time the services to the schools of the state have been complete, the department's contacts have been frequent and our willingness to cooperate recognized, I am sure that the people of the state are amply sufficient to give me the support I need for the office. I am bold."

Independence of Austria 'Absurd'

ROME, March 16.—(AP)—Premier Mussolini declared today before a chamber of deputies that it would have been "an historical and political absurdity" for Austria, a German state, to have remained independent and not German. He said that Italian troops to the Brenner pass when Austria's Chancellor Engelbert Dollfuss was assassinated July 26, 1934—a gesture to prevent nazification of Austria. "No Austrian ever thanked me for that," he said. He declared that the Versailles treaty provision that Austria must remain forever independent was "absurd and anachronous."

Mobilization Bill Is Passed by Jay Lower House

TOKYO, March 16.—(AP)—The house of representatives today passed without dissent and without debate the army-sponsored national mobilization bill, against which house members had fought bitterly until a few days ago. Opponents of the bill had declared it would place disastrous wartime powers in the hands of the government and that it was copied after the laws of Fascist Italy and Nazi Germany. Army circles were jubilant over passage of the bill through the house and the collapse, which became apparent two days ago, of civilian opposition. The bill still has to have approval of the house of peers, but the government believed it would meet no serious obstacles there. The measure provides for stringent regulation of nearly all phases of the national life in time of war.
