WOMEN CREATE NAY SQUADRON

TACOMA, Oct. 17.—(UP)—A group of Tacoma women today had completed organization of what is believed to be the first women's naval squadron in the nation qualified to take over navigation duties in event of a national emergency. The organization was formed by Mrs. William Healy, wife of the Tacoma Yacht club commodore. Johnnie Healy, wife of the vice commodore, and other socialites and yachtswomen, who are qualified to take over navigation duties should an emergency warrant such services. Efforts are being made by the Tacoma women to enlist other members of the fair sex in the state, qualified to act as skipper, to join the group. Mrs. Healy forwarded a letter to Navy Secretary Frank Knox suggesting that similar squadrons be organized in every seaport city in the nation.

Draft Board's Head Broods, Kills Self

ATCHESON, Kan., Oct. 17.—(UP)—Samuel G. Miller, 45, chairman of the county draft board, last night shot and killed himself at his farm home. Friends said he had been brooding over his responsibility of naming young men in Atchison county for military service. He was commander of his American Legion post and served with the A. E. F. in France during the World War.

Gunshot Takes Life

LONGVIEW, Oct. 17.—(UP)—Fifteen-year-old Little Burchett died yesterday of a bullet wound received when a rifle discharged in the hands of a younger brother. The children were playing with the gun. The mishap occurred on Monday.

DRAFT WHEELS PUT IN MOTION

(Continued from Page 1) 000 men within the prescribed age limits. It is the local boards, nominated by state governors and appointed by Mr. Roosevelt, who take over the draft machinery in their areas today.

ALL TO GET NUMBER

As soon as each board gets its cards it will shuffle and number them, placing "1" in the upper left hand corner of the top card, "2" on the second, and so on until the last card is reached.

Master sheets will be prepared giving the name of each registrant and his number. They will be posted outside local headquarters so that every man can see what his number is.

Meanwhile plans will proceed here for the lottery which will determine the sequence in which men are to be called up. The lot has not been set and drawn. But even if his number is among the first, a man is long way off from induction into the army. Only those who are unenumbered, but not called and not holding an essential job will be taken from civil life. Those with numbers far down may never be called.

Police regarding classification will be among Dykstra's first tasks. He must also determine on a policy for the determination of the quota, which each state must supply to the 500,000 men to be called in the next year.
